EDUCATION

Bachelor of Technology in Computer Science and Engineering 2020 - 2024
National Institute of Technology Karnataka | CGPA: 8.84 / 10.0

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, SQL, C++
Backend & APIs: FastAPI, Spring Boot, REST APIs, Microservices, PostgreSQL, Redis, SQLite
Frontend: React, Next.js, Redux, Tailwind CSS, HTML5, CSS3
Cloud & DevOps: Docker, AWS, Git, CI/CD Pipelines, Linux

EXPERIENCE

Software Engineering Intern | TechInnovate Solutions Jan 2024 - Jun 2024

- Developed asynchronous RESTful APIs using FastAPI and PostgreSQL handling 100k+ requests.
- Reduced query latency by 40% with B-Tree composite indexes and Redis cache invalidation.
- Implemented JWT authentication and containerized microservices using Docker.

KEY PROJECTS

AI-Powered Adaptive Mock Interview Platform

- Tech Stack: FastAPI, React, TypeScript, PostgreSQL, Tailwind CSS
- Created dynamic difficulty adaptation engine based on real-time answer rubric scoring.
- Built AST-based algorithmic code complexity analyzer and test execution sandbox.

Financial Fraud Detection Engine

- Tech Stack: Python, scikit-learn, XGBoost, Pandas
- Handled class imbalance using SMOTE and achieved 92% ROC-AUC score.

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate
- DeepLearning.AI Machine Learning Specialization
